Allowable Subject Matter

1. Claims 1-12, 15 and 23 are allowed.
2. The following is an examiner's statement of reasons for allowance: the prior art, either singly or in combination fails to anticipate or render obvious, the limitations of:
 - ...removing the at least one layer on the second side of the semiconductor substrate, while maintaining the capping layer and the pattern of the at least one layer on the first side of the semiconductor substrate; and
 - removing a portion of the capping layer on the first side of the semiconductor substrate
 - wherein the capping layer is formed of a material that is different from the at least one layer on the second side of the substrate, as required by claim 1;
 - ...wherein removing the at least one layer on the second side of the semiconductor substrate precedes removing a portion of the capping layer on the first side of the semiconductor substrate, as required by claim 11; and
 - ...forming a conductive layer on the gate pattern and on the first side of the substrate and on the masking layer on the second side of the semiconductor substrate;
